DXN Triumphs in 2023; Celebrating Milestones, Expanding Global Reach, and Initiating Innovations for a Prosperous Future

德信于2023年再创辉煌；欢庆周年里程碑、扩大全球影响力，启动创新以共享繁荣的美好未来。

Kejayaan DXN dalam tahun 2023; Meraikan Pencapaian, Mengembangkan Capaian Global, dan Mencipta Inovasi untuk Masa Depan yang Lebih Cerah

Good Morning DXN

In the dynamic landscape of 2023, DXN has triumphed, reaching remarkable success milestones. Our most notable achievement is attaining the status of a listed company on the prestigious Bursa Malaysia, marking a significant step in our corporate journey. Additionally, the celebration of our 30th Anniversary stands as a testament to our enduring stability and resilience. These milestones underscore DXN's unwavering commitment to excellence and firmly cement our position as a steadfast force in the business arena.

DXN has reached an impressive global milestone, boasting a substantial network of 16.4 million registered distributors spanning continents. This remarkable figure is proof of the widespread recognition and trust that individuals worldwide have placed in DXN. Our expansive distributor base reflects not only the scale of our reach but also the strength of the relationships we've cultivated with individuals who believe in our products and the opportunities we offer. As we continue to grow, this global network solidifies DXN's position as a leader in the industry.

Another great triumph for DXN is the appointment of a grand total of 62 Crown Ambassadors, which stands as a profound testament to the resounding success and widespread recognition that our brand has achieved. This achievement is not merely a statistic; it is a living testament to the unwavering commitment of these esteemed DXN Distributors. They have not only demonstrated the viability of our business, but have also shown that success is an attainable reality, contingent upon the inclusion of hard work and patience in one's entrepreneurial journey. Their collective journey serves as an inspiration, a living embodiment of the potential within our grasp when determination and perseverance are the guiding forces.

We are also thrilled to unveil the latest addition to the DXN product lineup: the groundbreaking DXN Gempyuri. This state-of-the-art formulation artfully taps into the potent properties of a diverse array of mushrooms, with each element contributing to a comprehensive approach to skincare. Noteworthy ingredients include Shiitake, Tiger Milk Mushroom, Cordyceps, and Ganoderma lucidum. DXN Gempyuri transcends the conventional definition of skincare and stands as a tangible testament to our unwavering commitment to harnessing nature's bounty for the enhancement of skin health.

The anticipation is high, and it is our sincere hope that 2024 will usher in even greater prosperity for DXN and the world at large. May the coming year be marked by continued growth, innovation, and positive transformations, bringing forth a future filled with opportunities, success, and well-being for all.

Happy New Year!

2024

Beyond A Smile

The Benefits of Regular Teeth Brushing

健康灿烂的笑容: 养成良好的刷牙习惯
Menjangkaui Senyuman: Faedah Kerap Memberus Gigi

Smile is our calling card to the world, but there's more to brushing our teeth than just aesthetics. The simple act of brushing our teeth is not just a hygiene ritual; it's about maintaining our oral health and overall well-being.

The mouth serves as both the primary gateway into our body and an entry point for harmful bacteria to thrive. When allowed to thrive, this plaque can lead to tooth decay and gum disease. Furthermore, research has shown that poor oral hygiene can lead to an array of health problems such as heart disease, diabetes, and even respiratory infections [1][2]. Therefore, taking care of our teeth and gums is not only an investment in our smile but also in our health.

Senyuman memperkenalkan diri kita kepada dunia. 刷牙不仅仅是审美要求。刷牙这个简单的行为不仅仅是一个卫生习惯; 它关乎维护我们口腔健康与整体健康。

口腔既是我们的主要入口，也是有害细菌滋生的入口。如果任其滋生，牙菌斑会导致蛀牙和牙龈疾病。此外，研究表明，不良口腔卫生会引起一系列健康问题，如心脏病、糖尿病、甚至呼吸道感染^{[1][2]}。因此，照顾好我们的口腔健康不仅是对微笑的投资，也是对整体健康的投資。

Here's where the magic of brushing teeth comes into play. By diligently brushing our teeth, we're taking a proactive step to protect our beautiful smile and safeguard our health in multiple ways:

刷牙是保持口腔健康的一种重要方式。因此，我们必须采取积极措施保护我们的美丽笑容和整体健康。
Di sinilah keajaiban yang ada pada menggosok gigi. Dengan rajin menggosok gigi, kita mengambil langkah proaktif untuk memelihara senyuman menawan kita dan menjaga kesihatan dalam beberapa langkah:

PREVENTING TOOTH DECAY AND CAVITIES 预防蛀牙和龋齿

MENCEGAH DARIPADA PEREPUTAN GIGI DAN KAVITI

Brushing our teeth consistently helps to remove this bacterial menace, preventing cavities from forming.

定时刷牙有助于杀灭细菌和控制菌斑，从而预防蛀牙。

Menggosok gigi dengan konsisten dapat membantu membuang bakteria yang merbahaya ini, mencegah kaviti daripada terbentuk.

PROTECTING ENAMEL | 保护牙釉质 MELIHARA ENAMEL

Brushing regularly helps remove acid-producing bacteria and food debris that can erode enamel, protecting our teeth to remain strong and resilient.

定时刷牙有助于清除滞留在牙面的食物残渣，使细菌失去持续发酵产酸的原料，进而让牙齿保持坚固和韧性。

Memberus gigi dengan kerap dapat membantu menyengkirkan bakteria yang menghasilkan asid dan sisa makanan yang boleh mengakis enamel, memelihara gigi supaya kuat dan tidak mudah rosak.

FIGHTING GUM DISEASE | 对抗牙龈疾病 MENCEGAH PENYAKIT GUSI

Regular brushing helps prevent gum disease and ensures our gums remain healthy and robust.

定时刷牙有助于预防牙龈疾病，并确保我们的牙龈保持健康和强壮。

Kerap memberus gigi dapat membantu mencegah penyakit gusi dan memastikan gusi kita sentiasa sihat dan kuat.

BREATH OF FRESH AIR | 呼吸新鲜空气 NAFAS BERBAU SEGAR

By brushing our teeth and cleaning our tongue, we can keep our breath fresh and boost our confidence.

刷牙和清洁舌苔有助于祛除口腔异味，保持口气清新，从而增强自信。

Dengan memberus gigi dan membersihkan lidah, kita dapat mengekalkan nafas yang segar dan menaikkan keyakinan diri.

SO, WHAT ARE SOME KEY BRUSHING TIPS?

那么，您知道该如何掌握正确的刷牙方法吗？JADI, APA TIPS PENTING DALAM MEMBERUS GIGI?

1 CHOOSE THE RIGHT TOOLS | 选择正确的工具 | PILIH PERALATAN YANG TEPAT

A toothbrush and toothpaste are the most common methods of removing plaque from the oral cavity. Investing in a medium-to-soft bristle toothbrush^[3] and tooth-friendly ingredients toothpaste can effectively clean our teeth. Incorporating the ingredients that provide antioxidant, antibacterial, and antifungal activities could be an added advantage, such as *Ganoderma lucidum*, Oolong tea, peppermint oil, tea tree oil, and clove oil^{[4][5][6]}.

牙刷和牙膏是清除口腔牙菌斑最常见的方式。选择购买中等至软毛刷头的牙刷^[3]和对牙齿友好的成分牙膏，既能有效清洁牙菌斑，又不伤害牙齿。若是再添入含有抗氧化、抗菌和抗真菌活性的有益成分，如灵芝、乌龙茶、薄荷油、茶树油和丁香油^{[4][5][6]}，还能为您的牙齿提供额外的保护。

Berus gigi dan ubat gigi adalah peralatan yang biasa digunakan untuk membuang plak dari rongga mulut. Melabur kepada berus gigi dengan bulu yang sederhana lembut^[3] dan ubat gigi yang mempunyai ramuan yang mesra kepada gigi dapat membersihkan gigi dengan efektif. Menggabungkan bahan-bahan yang mengandungi anti oksida, anti bakteria, dan antifungus boleh menjadi satu kelebihan, seperti *Ganoderma lucidum*, teh Oolong, minyak pudina, minyak tea tree, dan minyak bunga cengkih^{[4][5][6]}.

2 BRUSH TWICE A DAY | 每天刷牙两次 | MEMBERUS GIGI DUA KALI SEHARI

Make it a habit to brush at least twice a day, once in the morning and once before bedtime. Brushing twice daily for at least 2-3 minutes per session^[7] with the right technique is optimal for preventing common oral diseases.

养成早晚刷牙的好习惯，保证每天至少刷牙两次，早晚各一次，每次至少2-3分钟^[7]。掌握正确的刷牙方式，可以有效预防口腔疾病。

Mempunyai tabiat memberus gigi sekurang-kurangnya dua kali sehari, sekali pada waktu pagi dan sekali sebelum tidur. Memberus gigi dua kali sehari, sekurang-kurangnya 2-3 minit setiap sesi^[7] dengan teknik yang betul akan dapat mencegah penyakit-penyakit oral.

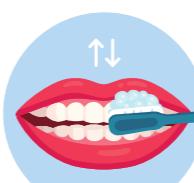

THE ADVISED BRUSHING TECHNIQUE^[8]

刷牙的正确姿势^[8]

TEKNIK MEMBERUS GIGI YANG DIGALAKKAN^[8]

For the outer portion of tooth surfaces, place the toothbrush at a 45° angle towards the gum margin.

Move the brush from up to down for the upper jaw and from down to up for the lower jaw.

To clean the inner backtooth surfaces, use gentle down strokes with the tip of the toothbrush.

To clean the inner front tooth surfaces, hold the brush upright, and use gentle up and down strokes with the tip of the toothbrush.

For chewing surface use gentle, short back and forth motion so that teeth are cleaned.

3 DON'T FORGET TO FLOSS | 别忘记使用牙线 | JANGAN LUPA UNTUK FLOS

Brushing is the most effective method in cleaning the teeth, but it cannot reach in-between the teeth. Flossing is essential to remove food particles and plaque from between our teeth and along the gumline, for preventing gum disease and tooth decay.

刷牙虽然是保持口腔清洁最有效的办法，但无法刷到牙齿间的缝隙，达不到彻底清洁的作用。使用牙线来去除牙齿间的食物残渣和牙菌斑，是预防牙龈疾病和蛀牙的重要方法。

Memberus adalah cara yang berkesan untuk membersihkan gigi tetapi ianya tidak sampai di celah - celah gigi. Flos adalah penting untuk membuang sisa makanan dan plak dari antara gigi dan gusi, untuk mencegah penyakit gusi dan kerosakan gigi.

4 RINSE AND REPLACE | 漱口和定时更换牙刷 | KUMUR DAN GANTI

Rinsing our mouth with an antibacterial mouthwash can further enhance our oral hygiene. Also, replace our toothbrush every 3-4 months, or sooner if the bristles are frayed.

使用抑菌类漱口水可以有效提高菌斑清除率。此外，每3至4个月必须更换一次牙刷。如果牙刷的刷毛出现磨损，则可以提前更换。

Mengumur mulut dengan pembersih mulut boleh membantu membersihkan lagi mulut. Selain daripada itu, tukar berus gigi sekali setiap 3-4 bulan atau lebih cepat jika berus telah rosak.

5 REGULAR DENTAL VISITS | 定期检查牙齿 | PEMERIKSAAN GIGI BERKALA

Schedule regular check-ups with the dentist. This can catch and address dental issues before they become serious.

定期让牙医进行口腔健康检查有助于预防或尽早发现早期牙龈疾病的症状。

Berjumpa dengan doktor gigi secara berkala. Ini membolehkan masalah gigi dikenal pasti awal dan mengelakkannya dari menjadi serius.

By embracing proper dental hygiene and brushing our teeth diligently, we're not only taking a proactive step toward a radiant smile but also ensuring a healthier life. So, let's make this simple yet powerful act of self-care as part of our daily routine to brighten our lives from the inside out.

通过正确和良好的口腔卫生习惯，让我们的笑容不仅永远灿烂，还能确保更好的生活质量。因此，让我们把这项简单而有力的自我护理作为我们日常生活中重要的一部分，从内到外地照亮我们的生活。

Dengan mempraktikkan kebersihan mulut yang lengkap dan rajin memberus gigi, kita bukan sahaja mengambil langkah proaktif untuk mendapatkan senyuman yang menawan, tetapi juga untuk memastikan kehidupan yang lebih sihat. Jadi, marijadikan langkah mudah tetapi hebat ini sebagai salah satu daripada rutin harian kita untuk menceriakan lagi hidup kita.

MANICKAM MERIMUTHU

Executive Double Diamond

Good Morning DXN Family,

My name is Manickam and my wife is Sakuntala

We became DXN distributors in the year 2006 when I was introduced to DXN by my brother, EDD Selvam Letchumy. Back then, I was not really interested or keen to learn about DXN as I was busy with my own transportation business. Nevertheless, I started to become a consumer and gradually consumed DXN products. As the years passed, I then qualified as a Star Agent.

It all started when I consistently consumed and used DXN Ganoderma products for myself. I was shocked to see how well they worked for me, and from there, I gained confidence and started selling more DXN products and sponsoring more people. I was truly confident in introducing DXN to others, and that helped me climb up to the next status of Star Ruby.

The moment I became a Star Ruby, I decided to become fully committed to the DXN business. I also started attending all meetings, achievers' rallies, and seminars without fail. These experiences truly boosted my motivation to run further and far in DXN. During that time, my upline, CA Dr. Selvam Sundri, guided me to pursue Star Diamond, which I achieved in the year 2013.

Time flies, and I am truly grateful for everyone who has guided me and helped me achieve all of my milestones.

Special thanks to Datuk Lim Siew Jin and CA Dr. Selvam for their invaluable guidance. I would also like to express my gratitude to our fellow members who have supported me throughout my journey, from the moment I started conducting more meetings and activities with the team to qualifying them. Fast forward to the year 2022, I achieved Double Diamond status, and by the end of 2023, I reached the rank of Executive Double Diamond. All thanks to my team and my sponsor, EDD Selvam, who has guided me every step of the way.

Successful people do not relax in their chairs; they relax in their achievements. They sleep with dreams and wake up with burning desires to commit to their goals.

SEE YOU AT THE TOP

Thank You

Selamat pagi keluarga DXN,

Nama saya Manickam dan isteri saya bernama Sakuntala.

Kami telah menjadi pengedar DXN pada tahun 2006, apabila saya diperkenalkan kepada DXN oleh saudara saya, EDD Selvam Letchumy. Pada awalnya, saya tidak begitu tertarik untuk belajar atau mengenali DXN dengan lebih, kerana saya sibuk dengan perniagaan perkhidmatan pengangkutan saya. Walau bagaimanapun, saya mula menjadi pengguna produk DXN dan menggunakan produk DXN. Selepas beberapa tahun, saya berjaya menjadi seorang Agen Bintang.

Segalanya bermula apabila saya menggunakan produk berdasarkan Ganoderma DXN secara konsisten. Saya amat terkejut apabila mendapat bahawa produk-produk ini amat berkesan kepada saya, dan dari situ, saya telah mendapat keyakinan dan mula menjual lebih banyak produk DXN dan menja lebih ramai orang. Saya amat yakin dalam memperkenalkan DXN kepada orang ramai, dan ini membantu saya untuk mencapai status seterusnya iaitu Bintang Delima.

Saat saya bergelar Bintang Delima, saya telah mengambil keputusan untuk komited dalam menghadiri segala perjumpaan, majlis pengiktirafan, dan seminar. Pengalaman ini lebih memotivasi saya untuk lebih berjaya dengan DXN. Pada ketika itu, ahli atasan saya, CA Dr. Selvam Sundri telah membimbing saya untuk mendapatkan status Bintang Berlian, yang mana saya telah berjaya capai pada tahun 2013.

成功人士往往不会在安逸的环境选择放松，他们只会在取得成功后才让自己放松下来。他们每天，伴着梦想入睡，带着目标醒来。因此，只有跳出舒适区，才是你人生真正的开始。

我们顶峰见！

Masa berlalu dengan pantas, saya amat berterima kasih kepada orang ramai yang telah membimbing dan membantu saya dalam mencapai kejayaan ini. Saya juga ingin memberikan jutaan penghargaan kepada Datuk Lim Siew Jin dan CA Dr. Selvam atas bimbingan mereka yang sangat berharga kepada saya. Saya juga ingin berterima kasih kepada ahli-ahli yang lain, yang telah menyokong saya sepanjang perjalanan saya bersama DXN, dari permulaan saya dalam menjalankan perjumpaan dan aktiviti untuk membolehkan mereka layak ke status seterusnya. Pada tahun 2022, saya telah mencapai status Berlian Berganda, dan pada penghujung 2023, saya telah mencapai status Berlian Eksekutif Berganda. Dan ini semua adalah berkat bimbingan dan sokongan ahli atasan saya, EDD Selvam dan ahli-ahli yang lain.

Orang yang berjaya tidak akan duduk diam di kerusi, mereka akan terus berbangga dengan kejayaan yang telah mereka capai. Mereka tidur dengan impian, dan bangun dengan semangat untuk menjadikan impian mereka satu realiti.

JUMPA ANDA DI PUNCAK KEJAYAAN

Terima kasih

The UNLOCKING THE PAST: The HISTORY OF TOOTHPASTE

解锁牙膏历史之谜 Merungkai Sejarah Ubat Gigi

Have you ever been curious about the History of Toothpaste? Let's explore it together! The history of toothpaste is a fascinating journey that dates back at least 5,000 years. Ancient cultures, including the Greeks, Romans, Chinese, and Indians, all used toothpaste for purposes like teeth whitening, breath freshening, and oral hygiene including cleaning teeth and gum. Their toothpaste ingredients included burnt eggshells, pumice, crushed bones, oyster shells, tree bark, and charcoal [1]. In the 1850s, the early version of toothpaste contained soap or chalk, and betel nut was also included in toothpaste in England around the time [2]. Later in the 1860s, ground charcoal was used as a whitening ingredient in some homemade toothpaste [2]. By 1892, Dr. Washington Sheffield introduced toothpaste in collapsible tubes [3], a design that remains common today. Modern oral hygiene with toothpaste, toothbrush, and floss began only in the 1950s [4]. Modern toothpaste has evolved to prevent and treat oral conditions such as tooth sensitivity and tooth decay, offering various formulas and forms such as powder, gel, and paste, with low abrasiveness to protect enamel [5].

您是否曾对牙膏的历史感到好奇？让我们一起来探索吧！牙膏有着一段可以追溯到至少5千年前的有趣历史。古时代的希腊人、罗马人、中国人、印度人都使用牙膏来美白和清洁牙齿、保持口气清新和维持良好的口腔卫生。他们的牙膏配方中包含烧焦的蛋壳粉、浮石粉、碎骨头和碎牡蛎壳、木炭和树皮^[1]。在1850年，早期的牙膏成分里含有肥皂或白垩，而当时的英国牙膏也添加了槟榔^[2]作为牙膏的原料之一。后来，在1860年后期，一些自制牙膏中还使用了木炭粉作为牙膏的美白成分^[2]。到了1892年，华盛顿·谢菲尔德博士才推出了可折叠的管装牙膏^[3]，这种经典设计，至今仍被广泛使用。直到1950年开始，现代口腔卫生清洁护理用品才正式面世，人们也开始使用牙膏、牙刷和牙线等的洁牙用品^[4]。如今，现代牙膏已进化至有助于预防或治疗牙齿敏感和蛀牙等的口腔疾病，从而提供各种配方和形式，如粉状、凝胶状和膏状。这具有低磨蚀性的牙膏，有助于保护牙釉质免受蛀牙^[5]。

DXN Toothpaste : Tradition Meets Innovation 德信牙膏：传统与创新的结合 Ubat Gigi DXN : Tradisi bertemu Inovasi

DXN, a globally recognized brand in the health and wellness industry, introduces a few types of DXN Toothpaste for your daily oral care routine – DXN Ganozhi Toothpaste, DXN Ganozhi Plus Toothpaste, DXN Zhicare Toothpaste, and DXN Oocha Toothpaste. DXN Toothpaste takes a holistic approach to oral care, combining the ancient and modern toothpaste history with the wisdom of natural ingredients. Let's dive into the extraordinary world of DXN Toothpaste and discover what sets it apart from the rest.

德信是全球知名的保健品牌，因此，德信自豪地向您推介几款适合您日常口腔护理的德信牙膏——德信灵芝保健牙膏、德信 Ganozhi Plus 灵芝牙膏、德信洁齿牙膏和德信欧舞牙膏。德信牙膏拥有全面的口腔护理方案，结合了古代和现代的牙膏技术，并在配方中融入了天然成分。让我们一起深入了解德信牙膏的非凡世界，探索它与其他牙膏的不同之处吧。

Xylitol and Stevia are tooth-friendly sweeteners as they do not contain any fermentable carbohydrates, which help reduce plaque production and protect teeth from cavities [6][7][8]. Essential oils such as Peppermint Oil, Clove Oil, Tea Tree Oil, etc. can provide an effective intracanal antiseptic solution against oral pathogens [9]. Aloe vera can be used as an adjunct formulation due to its herbal and medicinal properties and its established effects on reducing different oral cavity micro-organisms [10]. It could be used for the improvement of plaque and gingival status [11].

木糖醇和甜叶菊提取物糖是一种对牙齿友好的甜味剂，因为它们不含发酵碳水化合物，有助于减少牙菌斑的形成，从而保护牙齿免受蛀牙侵害^{[6][7][8]}。精油如薄荷油、丁香油和茶树油等具有高效的抗菌活性，有效对抗口腔病菌^[9]。此外，芦荟因其草药特性可作为辅助配方。添加芦荟有效减少口腔细菌的滋生^[10]，并改善牙菌斑和牙龈健康^[11]。

Xylitol dan Stevia adalah pemanis yang mesra kepada gigi dan ianya tidak mengandungi karbohidrat yang boleh menapai, yang dapat membantu mengurangkan penghasilan plak dan memelihara gigi daripada kaviti [6][7][8]. Minyak pati seperti Minyak Pudina, Minyak Cengkeh, Minyak Tea Tree dan lain-lain lagi dapat memberikan penyelesaian antiseptik intrakanal yang berkesan dalam membasmikan patogen dalam mulut [9]. Aloe vera boleh digunakan sebagai formula tambahan yang disebabkan oleh ciri-ciri herba dan perubatannya dan kesannya dalam mengurangkan pelbagai jenis mikroorganisma pada rongga mulut [10][11].

More Than Dental Care: A Holistic Approach

不仅于口腔清洁护理：全面牙科护理方案

Bukan Sekadar Penjagaan Mulut: Satu Pendekatan Holistik

DXN Toothpaste is more than just a dental care product. With its natural ingredients such as Ganoderma or Oolong Tea or essential oils, etc., DXN Toothpaste offers a safe choice for the whole family. Elevate your oral care routine with DXN Toothpaste, and experience the magic of nature in every brush to keep your teeth and gums healthy, as well as embark on a journey towards a healthier, more radiant smile.

德信牙膏不仅仅是一种口腔护理产品。凭借其天然成分如灵芝、乌龙茶或精油等，德信牙膏为一家大小提供了更安全的选择。使用德信牙膏来提升您的口腔护理习惯，每一刷都能体验大自然的神奇护理，保持牙齿和牙龈的健康！今天就开始迈向更健康、更灿烂的微笑之旅。

Ubat gigi DXN bukan sekadar satu produk penjagaan mulut. Dengan ramuan semula jadinya seperti Ganoderma atau Teh Oolong atau minyak pati dan lain-lain, Ubat Gigi DXN memberikan kepada anda satu pilihan yang lebih selamat kepada keluarga anda. Perbaiki rutin penjagaan mulut anda dengan ubat gigi DXN, dan nikmatilah keajaiban yang ditawarkan oleh alam semula jadi dari setiap gosokan bagi membuatkan gigi dan gusi anda kekal bersih, dan jesteru mendapat senyuman yang lebih sihat dan berseri-seri.

CROWN AMBASSADOR

Parmjit Kaur & Gurcharan Singh

Good Morning DXN!

My name is Gurcharan Singh, from Rajpura, Punjab. I became a part of the DXN Family in September 2018, with a clear target of achieving the title of 'Crown Ambassador' in 4 years, and with the grace of almighty and continuous support and motivation from my upline and company management, I have finally achieved what I dreamt of.

I worked as a government employee in Rajpura. I only had one dream in my eyes, 'the dream of serving the people.' No doubt, being a government employee gave me a chance to do so, but I wanted something that could give me as well as society, 'Health, Wealth, and Happiness.' I came across DXN and immediately felt, "yes, this is the best platform that could

help me achieve my dream". In the beautiful journey of 4 years, the only principle I followed was 'hard work, determination, focus and positivity.'

DXN provided me with the best tools, the best technology, and the best mentorship.

I am thankful to the entire DXN family from the core of my heart who helped me achieve my dream and gave the best network of those who are a delight in the success of people around them.

Thank You

早安德信大家庭,

我的名字是 Gurcharan Singh, 来自拉杰普拉, 旁遮普邦。我于2018年9月加入德信, 成为大家庭的一份子。然而, 我的目标是在4年内达至“皇冠大使”的阶级。上天果然会眷顾每一个努力的人, 也在公司管理层和上线的鼎力支持和鼓励下, 我实现了我所追求的梦想。

我是拉杰普拉 (Rajpura) 的一名政府雇员。我只有一个宗旨, 就是造福人民。虽然这份政府雇员的工作给了我一个这样的机会, 但其实我想要的是为自己和人民带来健康、财富和幸福的生活。因此, 当我遇到德信的时候, 我立刻觉得: “是, 这是我一直梦寐以求的平台, 它可以帮助我实现我的梦想。在这四年的美好旅程中, 我遵循4条处事原则, “努力、决心、专注和积极”。

德信为我提供了最好的设备、技术和指导。我衷心感谢德信大家庭的所有成员, 是您们帮助我实现了我的梦想, 给了我最好的网络。

谢谢您们

Selamat pagi DXN!

我的名字是 Gurcharan Singh, 来自 Rajpura, Punjab. Saya telah menjadi sebahagian daripada keluarga DXN sejak September 2018, dengan impian untuk mencapai status 'Duta Mahkota' dalam tempoh 4 tahun, dan dengan izin Tuhan serta sokongan dan motivasi yang berterusan dari ahli atasannya dan pihak pengurusan syarikat, saya akhirnya telah berjaya mencapai impian saya.

Saya sebelum ini merupakan seorang penjawat awam di Rajpura. Saya hanya mempunyai satu impian, 'impian untuk berkhidmat kepada orang ramai.' Semestinya, menjadi seorang penjawat awam membolehkan saya berkhidmat apabila diperlukan, tetapi saya ingin membuat sesuatu yang membolehkan saya memberi kepada saya dan masyarakat, 'Kesihatan, Kekayaan dan Kegembiraan.' Saya terjumba DXN dan merasakan bahawa inilah pentas

terbaik yang dapat membantu saya mencapai impian saya. Dalam perjalanan selama empat tahun yang indah ini, prinsip yang saya ikuti adalah 'kerja keras, gigih, fokus, dan positif'.

DXN memberikan saya alat terbaik, teknologi terbaik dan bimbingan terbaik.

Saya berterima kasih kepada seluruh keluarga DXN dari seluruh jiwa saya, yang telah membantu saya mencapai impian dan memberikan saya jaringan ahli yang terbaik yang terdiri daripada mereka yang gembira dengan kejayaan rakan-rakan mereka.

Terima Kasih
